

# Pin assignment

Pin assignment number: 9849

Connector name: with cable outlet

Index:

Pin-count: 25

13.01.2021

Page: 1/1

| Pin | Designation         | Description                | Colour |
|-----|---------------------|----------------------------|--------|
| 1   | SSI_Clock-_IN_2     | Clock input -              | red    |
| 2   | SSI_Clock+_IN_2     | Clock input +              | blue   |
| 3   | SSI_DATA+/Prg.+_2   | Data+/Prog.-Input+         | green  |
| 4   | SSI_DATA-/Prg.-_2   | Data-/Prog.-Input-         | yellow |
| 5   | not connected       |                            |        |
| 6   | not connected       |                            |        |
| 7   | not connected       |                            |        |
| 8   | not connected       |                            |        |
| 9   | Progr.-Input        | Direction_ IN / Preset1_IN | pink   |
| 10  | not connected       |                            |        |
| 11  | Supply Voltage IN_2 | Supply voltage             | white  |
| 12  | Ground IN_2         | Ground                     | brown  |
| 13  | not connected       |                            |        |
| 14  | not connected       |                            |        |
| 15  | not connected       |                            |        |
| 16  | not connected       |                            |        |
| 17  | not connected       |                            |        |
| 18  | not connected       |                            |        |
| 19  | not connected       |                            |        |
| 20  | not connected       |                            |        |
| 21  | not connected       |                            |        |
| 22  | not connected       |                            |        |
| 23  | not connected       |                            |        |
| 24  | not connected       |                            |        |
| 25  | not connected       |                            |        |

## WARNING

'De-energize the system before carrying out wiring work or opening and closing electrical connections !

Short-circuits, voltage peaks, etc. can cause operating failures and uncontrolled operating states, as well as serious personal injuries and damage to property.

Verdrahtungsarbeiten, Öffnen und Schließen von elektrischen Verbindungen nur im spannungslosen Zustand durchführen ! Kurzschlüsse, Spannungsspitzen etc. können zur Fehlfunktion und unkontrollierten Zuständen der Anlage bzw. zu erheblichen Personen- und Sachschäden führen.
