Certificate No. 14000100

Certified Product Name	CDH75M-EPL01, CDV75M-EPL01
openSAFETY VendorID	00:02:5C
openSAFETY Stack Version	V1.4
openSAFETY Source Checksum	0x3C705796
openSAFETY Device Type (SN/SCM/SDG)	SN
Device Revision (0x1018 entry)	0x00010105
Date of the conformance assessment	28.11.2014
Conformance assessment center	B&R Eggelsberg
Expiry date of Certificate	05.12.2019

This declaration of conformity is valid for the entire product family using the identical fieldbus communication interface technology as in the tested product. The validity of the certificate is defined in the application form of the "openSAFETY conformance assessment":

This certificate confirms that the product has successfully passed the openSAFETY conformance assessment conducted at an authorized test laboratory. This certification authorizes the product vendor to use the official "openSAFETY Certified Product" label as shown below for the openSAFETY compliant products as listed above.

Neither the openSAFETY conformance assessment nor the openSAFETY stack guarantee a safe or certified product according to the common safety standards, e.g. IEC 61508.

The tests were executed in accordance with the following documents: openSAFETY WDP 304 Version 1.4
